SUMMARY

Flutter specialist shipping production mobile apps since 2020 — now leading a team and building across the stack with Java & Spring Boot.

EXPERIENCE

Team Lead — Flutter · Technoboost Services **NOW**

Leading the mobile team — owning architecture, reviewing code, mentoring developers, and steering delivery

Senior Flutter Developer · Technoboost Services **2025**

Stepped up as senior — owning features end to end, driving clean architecture and performance

Joined Technoboost · Flutter Developer **2022**

Joined Technoboost as a Flutter developer — diving into production client apps and sharpening my craft on real-world products.

Where it started · Kenmark Itan Solutions **2020**

Where it all began — a curious fresher learning Flutter as an intern during my BSc.IT
